

BOZZ

Almost 100 years ago

KLUDI began manufacturing bathroom fittings using traditional methods of craftsmanship. Followed by high-quality, reliable fixtures of timeless design, this expertise formed the foundation of KLUDI. From the tradition as a faucet specialist, the goal was created to combine the highest quality of use and perfect design in a unique way. Thus the claim *Water in Perfection* finds unmistakable expression in our products as well as in all services we provide for our customers. It inspires and drives

our future activities.

KLUDI BOZZ embodies purism in its absolute form for the bathroom. Reduced to the essentials, this timelessly elegant range for washbasins, baths and showers does without any unnecessary ornamental touches or embellishments.

KLUDI BOZZ is moving with the times. The new, optimised K36 cartridge provides particularly reliable functionality, precision operation and perfect enjoyment of water. The addition of three different fitting spout heights to the range ensures that the functionally and aesthetically optimal solution can be implemented for every washbasin situation, and it gives users the freedom to realise their individual preferences and requirements. KLUDI BOZZ is available in chrome and matt black as standard.

When KLUDI designs bathroom and kitchen concepts, the aspect of utility is always a primary consideration – with the aim of making life a bit easier and more pleasant for everyone.

Water in Perfection

Technology, Design and Quality: Made in Germany

From easy and safe installation to unparalleled ease of use and perfect enjoyment of water – KLUDI fittings offer a multitude of added advantages for users.

Water in Perfection

Fittings in three spout heights provide the optimum solution for any washbasin environment.

75, 100, 240

More space to suit your needs

All users have their own visions of what makes their washbasin the ideal place for skincare and hygiene – in terms of functionality and aesthetics. With versions of the washbasin fitting in three different spout heights of 75, 100 and 240 mm, BOZZ guarantees that the optimal solution can be implemented for every washbasin

situation. Whether counter-top washbasins, undermount basins or washbowls are fitted, bathroom users always have the freedom to satisfy their individual preferences and requirements.

Less is more: the rosettes of the surface-mounted single lever mixer for bath and shower are reduced to the essentials.

Black is beautiful

For more individuality

Home interior design is all about style, trends, personal preferences and exclusivity. The bathroom is no exception here. Accordingly, individual, tailored solutions are sought-after, such as fittings finished in trendy matt black for a sophisticated touch instead of the usual chrome. Not a problem, as the key products in the KLUDI BOZZ range are also available in matt black as standard.

↑

Finishing touches:
every fitting is finished
to perfection.

True workmanship Uncompromising quality

KLUDI products embody quality workmanship, the kind associated with the 'Made in Germany' quality mark in Germany and abroad. From product development and in-house tool construction to manual final assembly, the quality management and quality assurance teams work together with all employees to make sure that the fittings and showers meet strictest finishing, functionality

and durability requirements. The goal here is to maximise customer and user satisfaction worldwide. Regularly certified and audited processes such as incoming goods inspections and manufacturing supervision help keep the complaint rate steadily low at significantly less than one percent.
