VERSE

Verse is a ceramic collection that reinterprets the appearance of natural clay through a high-precision spatulated finish, designed to faithfully replicate the artisanal texture and subtle chromatic variations typical of handmade materials. Its surface features irregular nuances that create a visual depth effect, evoking the patina of time and the manual intervention in each piece. With a balanced colour palette, this series adapts to a wide range of applications, from residential interiors to commercial projects seeking timeless design with an organic component.
