FOR YOUR **HOME**

Smart flooring is revolutionizing the world of interior design with its ingenious combination of high-quality materials, cutting-edge technology, and affordable pricing. These flooring system, featuring a mineral core and specialized underlays, provide outstanding performance that rivals even the most luxurious flooring options. Boasting impressive durability, smart flooring achieves a remarkable utility class, making it an ideal choice for all residential areas. With its exceptional wear resistance, easy installation, and stunning aesthetics, smart flooring truly offers the best of both worlds – superior quality at an accessible price point. Don't compromise on style or functionality; embrace the future of flooring with smart solutions designed to meet your every need.

Smart Flooring - Affordable Luxury Redefined

INNOVATIONS

Smart flooring sometimes means quick installation, which is why we are proud to use 5G locks in Legnar floors. Thanks to the 5G locks, floor installation is even easier. The 5G lock is the answer to the expectations of customers who want to install floors by themselves.

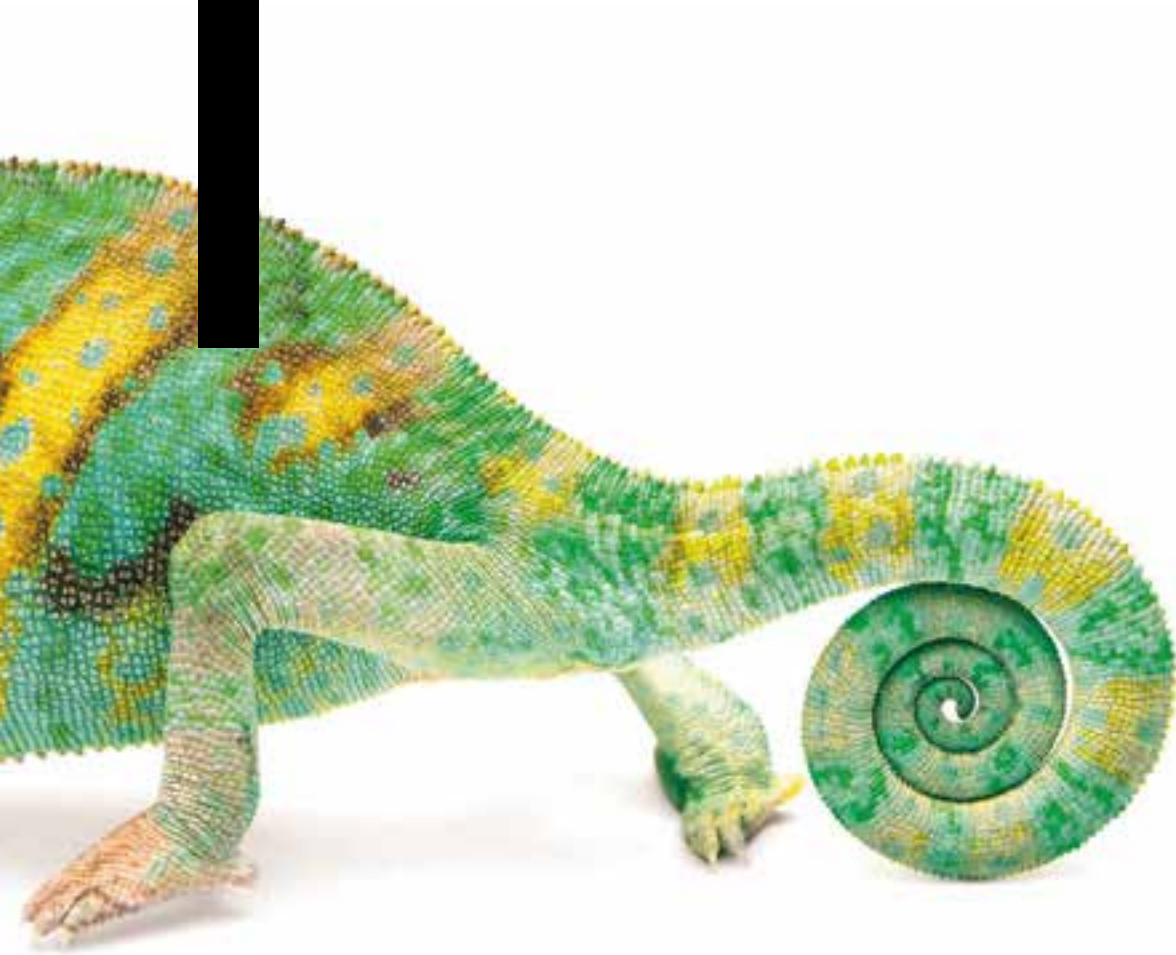

Introducing Legnar Acoustic collection, a triumph of European craftsmanship designed for tranquility. Boasting a sound insulation level of 21 dB (10 dB DELTA Lin), the collection includes ACULAY DURABILITY&ACOUSTIC layer, an innovative layer that combines unique cell shapes and a patented embossing structure to disrupt sound waves, achieving remarkable acoustic results. The durability of this collection is unparalleled, withstanding a 25 000 - cycle chair test.

MADE IN EUROPE

Wide selection of colours from wood and stone up to marble will satisfy even the most creative minds.

Unique and realistic wood design selected from the most beautiful wood type in the world.

FROM NATURE

AFIRMAX vinyl click floor will surprise you with its design features. This floor resembles natural material at its best. Gives you plenty of features to create your interior. Not only you can choose from many sizes and colours but also thickness and installation methods.

Soft, delicate and mat finished flooring - the best representation of a real wood.

Nice and silent in everyday use vinyl flooring brings comfort and serenity to everyday life.

FOR YOUR „HOME”

You do not need to worry about durability of the floor and ease of installation. You can do it by yourself and be certain that the floor will be waterproof, durable and silent. You can be sure that wherever your creativity leads you AFIRMAX floor will rise up to the challenge. This is perfect solution for large open spaces and floor heating.

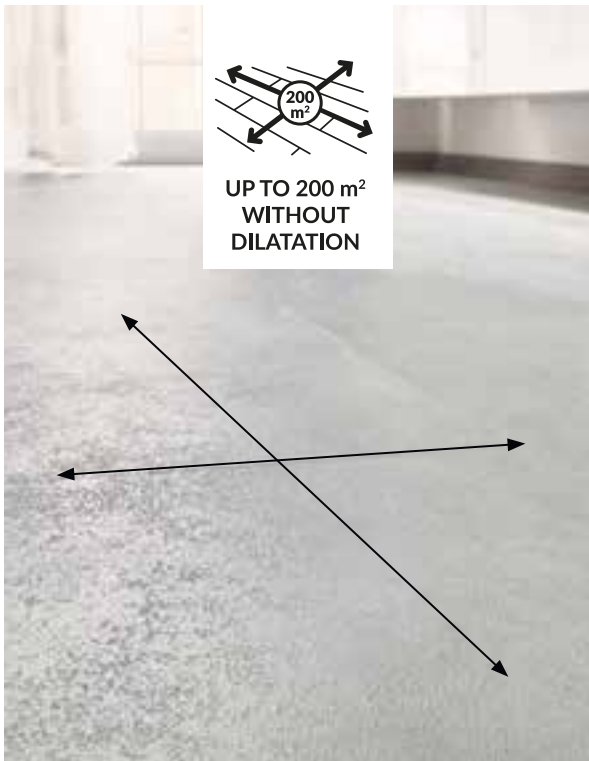

HOME PLAYGROUND... Nice and silent in everyday use vinyl flooring brings comfort and serenity to everyday life.

HOME CAFE... HD Mineral Core® primarily means extremely strong locking system which gives the whole flooring system a maximum durability. Despite of small thickness of the plank our locks are 2 times stronger than average LVT locks available on the market.

HOME SPA... No need to be scared of water. Our floors are 100% waterproof. Frequent cleaning or spilled drinks are no longer dangerous to your floor. Without concerns you can connect your kitchen floor with the rest of your living space.

WITH NO BOUNDARIES... HD Mineral Core® also means high dimensional stability of the floor even in very sunny rooms. We offer at least 2 times higher dimensional stability of our floors in comparison to traditional LVT.

HOME OFFICE... Very low thermal resistance of our floors means more effective use of the underfloor heating system. Thanks to HD Mineral Core® less fuel is needed for floor heating and over 60% less carbon is released into the atmosphere from one household in Europe, each year.

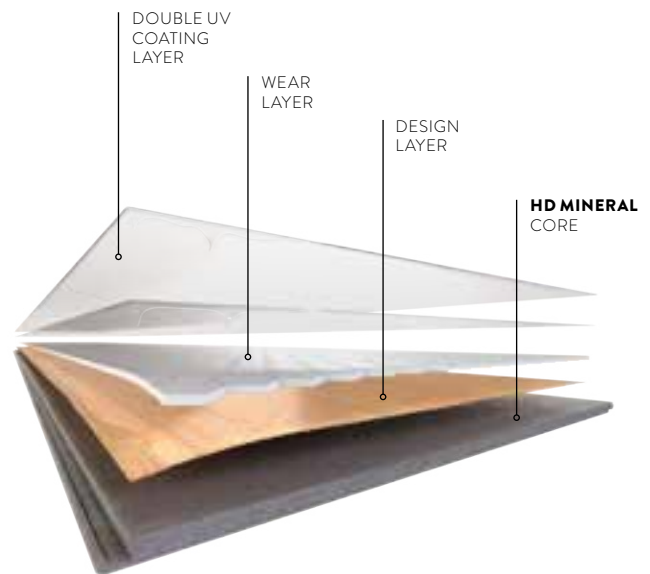

HD MINERAL CORE®

In our laboratories we've discovered an innovative combination of natural rock minerals and advanced polymers.

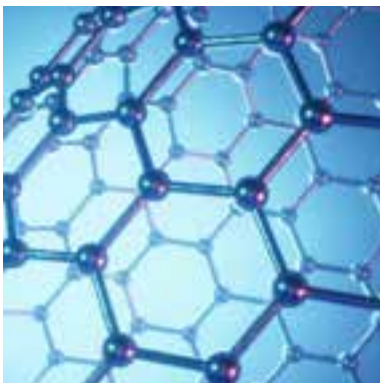

Carefully selected proportion ensures maximum performance of the floor.

Our HD Mineral Core® provides extreme durability which we confirm by giving 12 and 15 years guarantee.

Hardness and durability of natural rock minerals

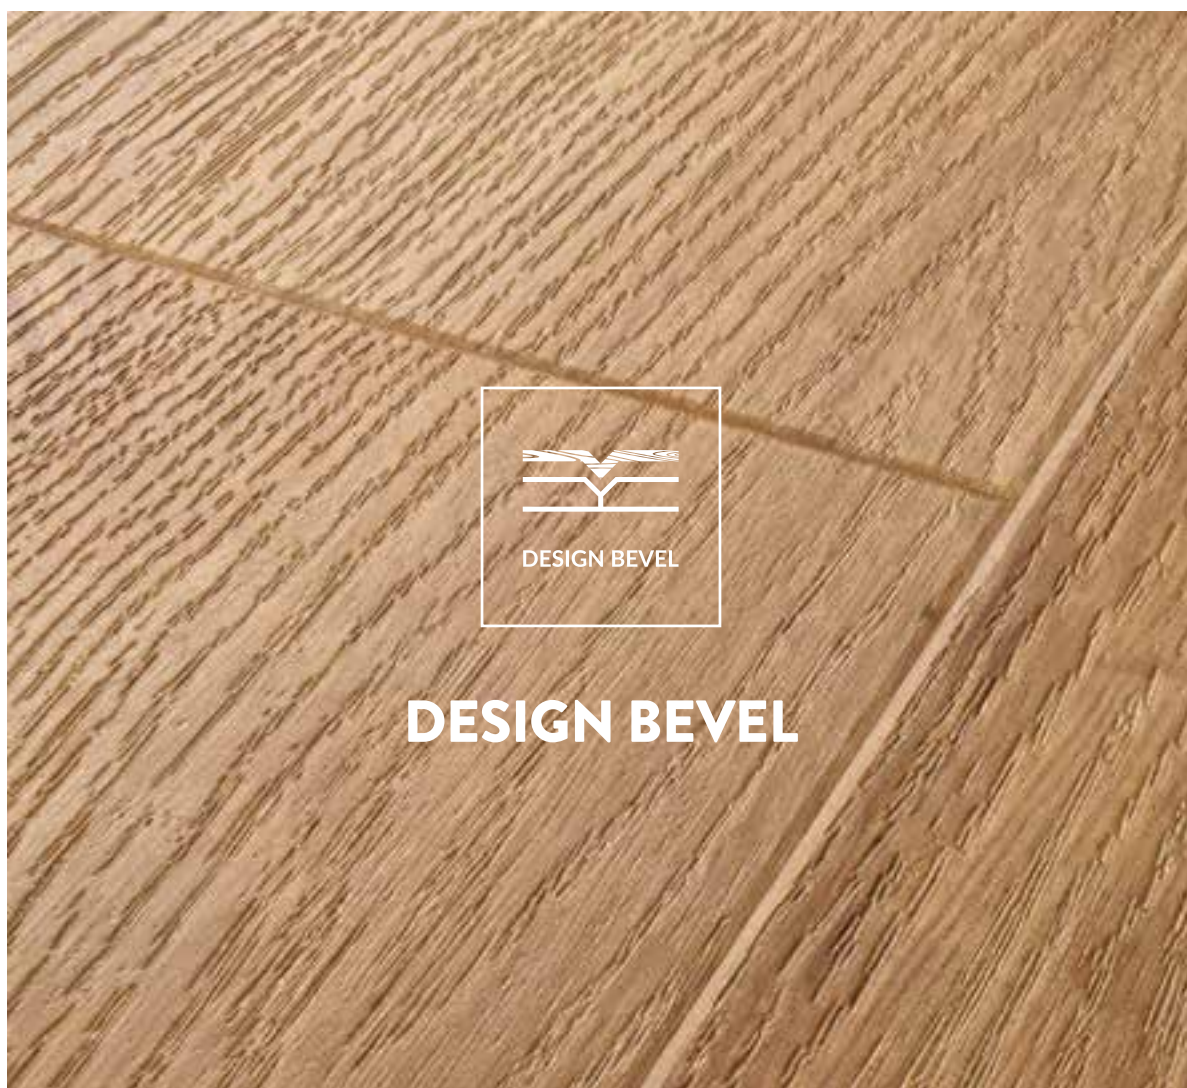

The flexibility of modern polymers based on carbon molecules

DESIGN BEVEL

NEW LOOK

A NEW DESIGN BEVEL inspired by true, classical wooden boards. The new bevel creates continuous design of planks. One plank flow smoothly into another giving the floor a premium finishing. This perfect resemblance of wooden floor creates a warm, natural feeling. AFIRMAX designers reproduced the most welcomed and demanded bevel among all flooring. This bevel is available in Legnar Ultra and Legnar collection.

STRUCTURE OF NATURAL WOOD

NEW QUALITY OF EMBOSSING TECHNOLOGY

The EIR (embossed in register) technology we are using allows us to achieve higher resolution of embossing, meaning higher density of details enriching surface of planks. LEGNAR ULTRA has more significant knots, grains, clear figure and small indentation that create a real wooden characteristic of the plank. Matte finishing of planks underlines all technological features giving a beautiful impression of a natural floor.

EMBOSSING

SMART FLOORING

One of the distinguishing features of these collections is the harmonious color palette. Three unique colors are available in both the Herringbone and Chevron collections. This unique approach allows for seamless blending of styles in various spaces, while maintaining a cohesive color theme throughout. But that's not all! For those seeking traditional shapes, we have a wide selection of traditional plank patterns. Our range includes planks with a synchronous structure, mimicking the natural grain of wood, as well as those with a soft structure.

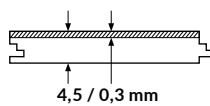

ACULAY - ACOUSTIC FLOORS

We are proud to introduce our new vinyl floors with a mineral core, featuring an integrated acoustic underlay called ACULAY. This innovative combination of panel and underlay provides a faster and easier installation process. As a European leader in underlay production, we guarantee that the ACULAY underlay is highly durable and meets all MMFA standards. Additionally, it offers an impressive sound reduction of 21 dB, and with durability of 25 000 castor chair cycles, it is perfectly suited for use in all residential spaces.

600 mm × 120 mm

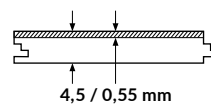

Packaging:
