INSTALLATION SYSTEMS / SISTEMAS DE INSTALACIÓN / SYSTÈMES DE POSE

LOCK

1. Tilt.

Inclinar.

Incliner.

2. Tap.

Golpear.

Frapper.

3. Fit together.

Encajar.

Emboîter.

One of the main features of this easy-to-install system is the durable and secure locking of the joints, ensuring that no gaps appear between the boards throughout the floor's useful life. The pressure exerted between the boards makes the joint more secure and prevents improper installation.

La seguridad y la durabilidad de unión entre juntas son las principales características de este sistema de fácil instalación que garantiza la eliminación de las rendijas entre las lamas durante toda la vida útil del suelo. La presión que se ejerce entre las lamas refuerza la unión e impide que ésta no se realice de forma incorrecta.

4. Tap.

Golpear.

Frapper.

5. Ready.

Listo.

Et voilà.

La sécurité et la durabilité de l'assemblage entre les lames sont les principales caractéristiques de ce système facile à poser, qui garantit l'élimination des fentes entre les lames pendant toute la durée de vie du sol. La pression exercée par les lames les unes contre les autres renforce l'assemblage et évite un montage incorrect.
