WOOD

A marker of good design is whether it relates to and interacts with its surroundings. Expona Control helps maximise the opportunities of each installation, allowing authenticity and practicality to permeate through the range.

The wood collection presents a tailored offer of natural timber designs, emulating the form whilst enhancing the functionality. Covering popular and well specified wood effects, Expona Control features variations in grain and high clarity decorations across a mix of wood species.

White Oak with Warm Grey Concrete

Magnified area of product to show an almost invisible slip resistance

WHITE OAK

6505 | 152.4 x 914.4mm

Traditionally less porous than the red oak species, White Oak incorporates a tighter grain which is clearly demonstrated here. With an almost invisible slip resistant aggregate incorporated throughout the performance layer, the colour allows light to bounce around a room, to offer a feeling of space.

Blond Country Plank laid as double planks with Mid Oak Marquetry Strip

BLOND COUNTRY PLANK

6501 | 152.4 x 914.4mm

Reminiscent of reclaimed timber and washed up driftwood, Blond Country Plank is a responsive call for energetic safety flooring. The design features more exaggerated knots and markings in an exciting sun-bleached mix of tones.

NUT TREE

6502 | 152.4 x 914.4mm

Nut Tree presents an exciting and active timber decoration, intended to add an extra vitality to commercial interiors. Featuring a strong grain, due to the large open pores of the natural material, the forced contrast works without disturbing its integrity.

AMERICAN OAK
6500 | 152.4 x 914.4mm

There are estimated to be up to 900 varieties of oak, covering the inherent beauty and natural variation in grain, colour and strength. American Oak exhibits one of the more common and highly popular colourways, featuring a clarity in grain definition and highlighted 'ray flakes', which are caused by nutrient cells moving through the timber.

CLASSIC OAK

6503 | 152.4 x 914.4mm

Demonstrating a more deepened and enriched honey colour to that of American Oak, this Classic variety provides an opportunity to create stunning interiors aligned to today's requirements, whilst removing the line between the adjacent systems of safety and design.

LIGHT ELM

6506 | 152.4 x 914.4mm

Light Elm is a creative response to existing and emerging demands for cool and clean grey tones. Another main feature is the lively figured grain which is reminiscent of quartersawn timber, representing the sophisticated modernity of Expona Control.

WEATHERED COUNTRY PLANK

6504 | 152.4 x 914.4mm

Detaching itself from the workshop floor, Weathered Country Plank portrays an aged history with an emphasised grain and heavily spalted markings. The almost wormed veneer lends a certain depth to the depiction whilst further adding to the increasingly diverse product pool.
