Le bacchette sono profili decorativi in alluminio e vengono utilizzati per esaltare le pareti creando ambienti più dinamici ed eleganti sostituendosi alla fuga tradizionale. Decorative profiles have been developed to enhance walls creating dynamic and elegant environments replacing the classic grout. Les baguettes sont des profilés décoratifs en aluminium et sont utilisées pour valoriser les murs, créant des environnements plus dynamiques et élégants en remplaçant le joint traditionnel. Die Staebchen sind decorative Profile aus Aluminium und werden gebraucht an der Stelle der traditionellen Listellos um die Waende hochzuwerten. Ziel dafuer ist dynamischere und elegantere Einstellungen zu schaffen.
