## EVOLUTIONARY DESIGN

From one to four! A successful concept developed in an intelligent way. Made on the basis of our successful model FRESH, the wall-flush concepts suit very well for the commercial renovation sector. The unique designs offer intelligent solutions especially for small rooms and budgets! The full body designs make tiling dispensable. Easy to handle and to install.

# NEW DESIGN TIDY

## MODERN TO WALL DESIGN

**Sophisticated design language!** Our new Tidy perfectly shows the high degree of our manufacturer know how within the ranges of freestanding bathtubs made from acrylics. Finest alignment combined with well rounded shapes leads to a one of its kind design.

# NEW DESIGN GO

## MODERN & CONVENIENT COMBI DESIGN

**Useful and chick!** This evolutionary bath & shower combination not only offers modern and beautiful design language - it also is practical. Offering a side door for easy entrance, it can be used as shower cabin or bathtub. Especially people with handicap will appreciate the easy entrance without resigning modern design or the pleasure of having a relaxing bath.

Due to its space saving corner design (left or right) it suits well to small scale bathrooms or perfectly within the renovation sector.
