

# PORCELAIN

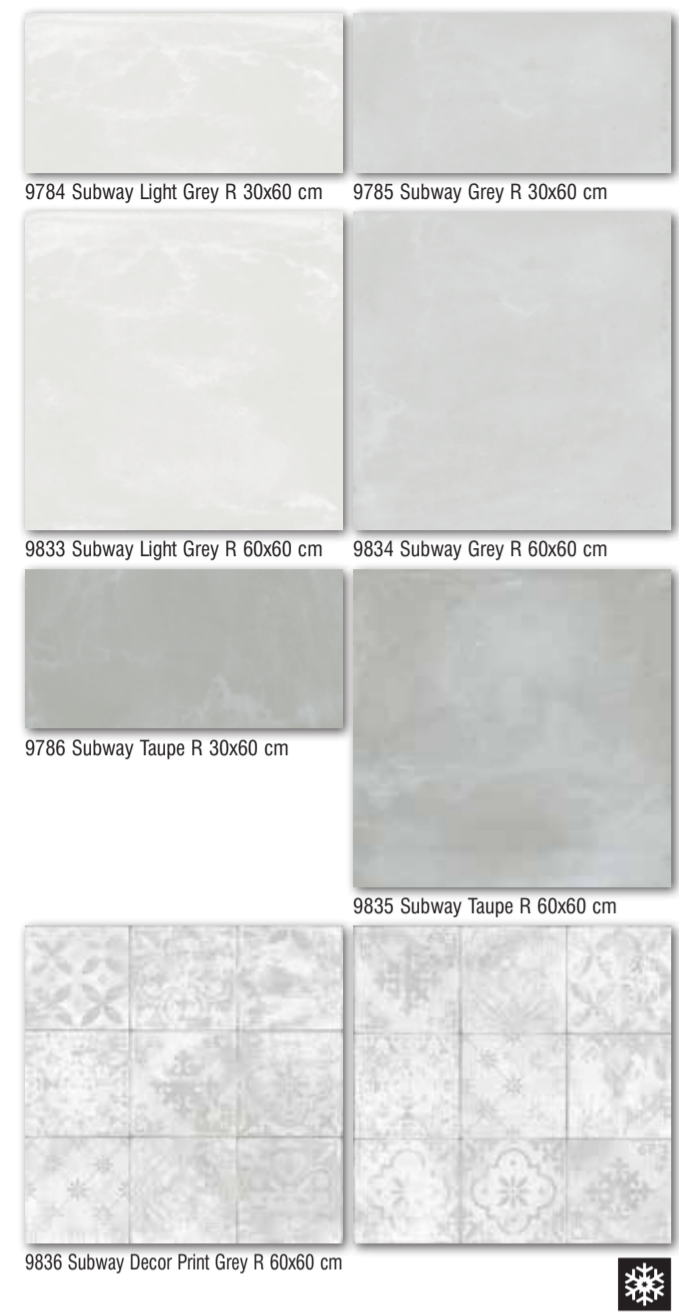

## COLLECTION

30x60cm • 60x60cm • Indoor • Outdoor

The development and implementation of new technologies turns porcelain into a covering that recreates the beauty of the natural materials. With its advantages (cold, moisture and scratch resistance, easy maintenance and aggressive cleaning) the porcelain tiles are among the preferred products on the market, which are used both in the interior and in the exterior. They are suitable for floors, walls, furniture and home accessories, bringing interesting textures and finishes in unexpected places.

# SUBWAY 30x60/60x60 cm

Cement and **concrete** look tiles are still one of the popular trends in the interior/exterior. Exposed concrete has moved on from being just an architectural industrial material to a source of inspiration for interior finishes. It has grown in popularity thanks to the minimalistic and modern look that has striking aesthetic impact. For a completely contemporary result, a concrete-look finish is certainly an excellent solution, which can be matched with different styles, creating a beautiful result. The concrete design tiles are mixing so well with other materials, such as wood, marble, copper and brass, which can all tone down its brutalist tendencies.

# VERANO 30x60/60x60 cm

# NORDIC 30x60/60x60 cm

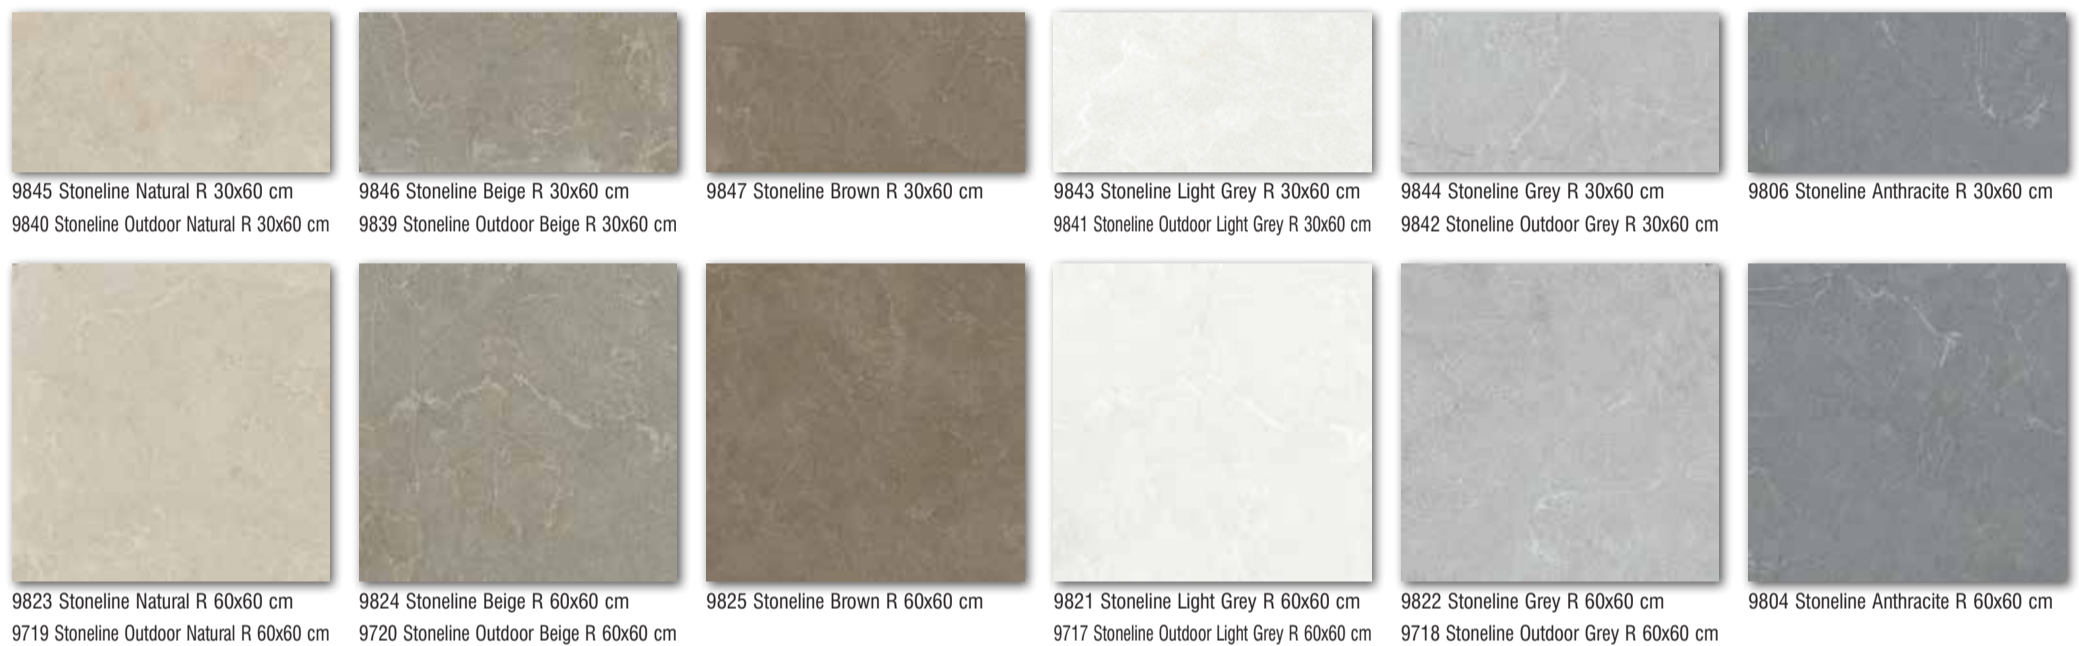

Tiles belong to a very exclusive group of interior elements that have the amazing ability to be able to completely transform a room in an instant. With the trend of adding elements of nature into our homes, **stone** has become extremely popular. Porcelain tiles recreating the gorgeous design of natural stone give a grounded sense of style in each space in and out of the home. Lappato surface gives the perfect final touch to these series.

# STONELINE

**30x60 / 60x60 cm**

**Stone** design tiles are popular in both places - interior and exterior. Inspired by the simple and clean forms and surfaces in nature the design of the new KAI GROUP collection perfectly reproduces the nuances of natural stones in neutral beige, brown and grey colors. The natural beauty and elegance of the stone make the tiles perfect for creating modern outdoor spaces. Rectified tiles allow creation of continuous surfaces.
