tiene su historia única

Calacatta Gold

The most extensive range of white marbles is extracted mostly from the quarries of the Apuan Alps in Carrara, Italy.

Calacatta Gold is distinguished by its very pronounced veining and its color nuances that can range from gold to ivory or blue-grey, giving it great visual depth.

La gama más extensa de mármoles blancos se extrae en gran parte en las canteras de los Alpes Apuanos en Carrara, Italia.

Calacatta Gold se distingue por tener unas vetas muy pronunciadas y con unos matices de color que pueden ir desde el dorado al marfil o al gris azulado, confiriendo una gran profundidad visual.
