STONE

As designer Paul Rand once stated "Design is the method of putting form and content together". Polyflor have given in to the irresistible desire to produce a collection of natural stone effects which bring an elegant symmetry to Expona Control. Meeting current requirements and anticipating future design and safety demands, the range of commercially relevant stone and concrete tiles portray the simple sophistication of design and quality of material.

PORTLAND STONE

7500 | 457.2 x 457.2mm

Portland Stone represents the essence of a clean and uncluttered mineral. The moderate quantity of fossils found in the natural material are evenly and subtly distributed resulting in an intentionally demonstrated floor design.

CLASSIC LIMESTONE

7501 | 457.2 x 457.2mm

Classic Limestone is a product of all our histories. Given the reputation as a global building stone, it is often utilised in exterior architectural applications and features a fine to medium grain which exhibits delicately warming tones.

CLASSIC YORKSTONE

7502 | 457.2 x 457.2mm

Imposing a stronger structure to that of limestone, Classic Yorkstone gives an honest account of an active material. The characteristic energy implies a swirling vein presented in a golden tone, which can help lift an interior scheme.

CAMBRIAN STONE

7507 | 304.8 x 609.6mm

Interlocking a mix of complementary brown through to cream tones, Cambrian Stone features golden highlight flakes which picks up and interacts with the surrounding light. Replicating the complex nature of fossilised limestone, the brick formatted tile displays a medium to coarse grain and widely varying fossil intensity.

SMOKED LIMESTONE

7503 | 457.2 x 457.2mm

The success of Smoked Limestone lies with the overall hue and subtle variation in markings which accurately depicts what quarriers of this type of material will naturally find. Inspired by ongoing calls for commercially relevant floorcoverings, Smoked Limestone presents a clear minded vision of a contemporary stone tile design.

WARM GREY CONCRETE

7504 | 457.2 x 457.2mm

Warm Grey Concrete contains a direct reference to this man-made material, which is manufactured to create a pleasing, flat finish, exposing a fine decoration. The integrated features contribute to help make the contemporary and industrialised design form each interior space.

Roman Limestone with Black Grouting Strip around two tiles laid together

ROMAN LIMESTONE

7506 | 304.8 x 609.6mm

There is an element of Roman Limestone, which of its own accord, is entirely separate from that of its inspiration. Submitting a lively character and strong demarcation in grey to cream tones, the design casts a nostalgic shadow from historic architectural materials.
